# Introduction

Established in 2021, we are an independently owned investment firm based in the US and UK. Today, UraniumFx Group comprises 898 investment professionals with investment experience of more than 15 years. We take great pride in more than \$21 billion in shareholder capital on behalf of over 40,000 retail investors as of 20th January 2022 and this figure increases daily. This is partnered with our philanthropic initiatives, including creating and supporting the Future Generation companies, which see us actively contributing to our community. We invest more than \$3.5 billion in diverse markets and global growth companies on behalf of over 40,000 shareholders. We also make a difference in the community, primarily as an advocate for retail investors and as the creator and lead supporter of the Future Generation companies.

**Investing in opportunities. *For you.***  
***For good.***

We analyze global markets with discipline and focus and employ a range of strategies to deliver market-leading investment returns to our capital partners. We empower the most talented minds in finance with an unparalleled combination of deep fundamental research, predictive analytics, and leading-edge technology to identify and capture new opportunities. Our world-class global team combines the art of investing with the science of finance to help our capital partners achieve their financial goals. We drive our mission through a culture of excellence: constantly improving, continuously learning, rewarding results, and winning with integrity.

# VISION

To grow by being the Best in Service, Quality, and Efficiency. To be the preferred investment & consultancy services provider to the clients we serve.

# MISSION

To add value with active portfolio management to help our clients reach their long-term financial goals. We achieve this through our investment & consulting strategies, adhering to our values and investment principles, and offering employees a challenging and rewarding place to build a career.

# Our Global Presence

Canada

# Our Core Values

## Professionalism

We take pride in our work and organization, act with integrity at all times, comply with our policies and standards, honor the confidentiality of clients and employees, and promote the positive image of the organization through all our actions.

## Service Excellence

We are client-focused, constantly expanding our knowledge and communicating our understanding of regional markets and business activities, driven to anticipate client needs and improve the quality and efficiency of the products and services we deliver.

## Performance Driven

Aligned with our long-term strategy, we aim to realize the potential of our team, foster and encourage an environment of high performers, and recognize, reward, and promote individuals based on merit and delivery of strategic results.

## Teamwork

We exemplify a sense of unity and teamwork throughout the organization, respect other team members, and promote communication and cooperation between departments in the overall interest of UraniumFx.

# SERVICES

URANIUMFX GROUP LTD.  
Growing in the digital direction

A hand is shown in the foreground, interacting with a futuristic digital interface. The interface is filled with various data visualizations, including bar charts, line graphs, pie charts, and binary code. The background is a dark, blue-toned digital space with a grid pattern and floating data elements. The overall aesthetic is high-tech and data-driven.

# Stock Management

In our view, thoughtful and informed active management can help our clients achieve their long-term objectives. This is the way we've approached Real Estate management since 2021. Our portfolio managers are given the freedom to develop their approach, which is then documented and monitored by our independent product management team. The goal is to ensure that our approaches are managed in line with a deeply considered, proven philosophy that sets out exactly how the manager intends to identify opportunities and control risks.

# Cannabis

Our team has closed over 75 million cannabis-related transactions Worldwide, and that number keeps climbing. With extensive experience in the Michigan market, you can be confident that our team has the knowledge, data, and expertise needed to be successful in this niche industry.

## Market Understanding and Research:

At UFXG, we recognize the importance of in-depth market research and understanding. Our dedicated team continuously monitors regulatory developments, market trends, and the financial performance of key players within the cannabis sector. This ensures that our strategies are informed by comprehensive insights, allowing us to capitalize on emerging opportunities.

## Long and Short Positions:

Depending on market conditions and their analysis, UFXG may take long positions (buying CFDs with the expectation of price appreciation) or short positions (selling CFDs with the expectation of price decline). This flexibility allows them to profit from both rising and falling prices in the cannabis market.

# CryptoTrading

Cryptocurrencies have shown a tremendous advance in a very short period. Regardless of whether you think that this will take over the banking system or that it will be an expansion of it, several possibilities are increasingly becoming more popular.

Blockchain and cryptocurrencies are everywhere on an international level, however, we are seeing an increasing number of collaborations. Not only do developers use the blockchain more often to set up and test new applications, the cryptocurrencies are also used more and more often. As a token within a platform itself, as a means of exchange, and as a payment unit. And that makes cryptocurrencies an interesting option when you want to invest your savings.

**Expertise**

Our track record blending crypto-native expertise with a honed investment strategy has proven the success of our cryptocurrency fund since 2021.

**Value Investing**

We invest directly in cryptocurrencies that address tangible use cases, provide economic benefits, demonstrate signs of product-market fit, and exhibit compelling crypto-economics combined with superior governance models.

**Risk Management**

UFXG emphasizes on risk management strategies such as; stop-loss orders.

**Regulation and Security**

UraniumFxGroup focuses on operating within a regulatory framework and implementing robust security measures.

# ForexTrading

You may not know it, but forex is one of the largest markets in the world, with over \$4 trillion in average daily volume transacted.

*So, if forex is so big, why have so few people heard of it?*

The simple answer is you have probably used the forex market before, either directly or indirectly. Any time you take a trip to another country and exchange money, you just make a forex trade. Whenever you buy something in a shop that was made in another country, you just make a forex trade.

***...you have probably already used the forex market before - directly or indirectly.***

## Why Trade Forex with Us?

- ✓ *Forex never sleeps.*
- ✓ *Go long or short.*
- ✓ *Unmatched liquidity.*
- ✓ *International exposure.*
- ✓ *Passive Income*

# Real Estate

UraniumFx Group has managed real estate since 2021 and is one of the largest investment managers in the real estate market. Our investment range allows our clients to access real estate through open-ended funds, listed REITs, specialist funds, joint ventures, separate accounts, and global real estate securities. As of 28 March 2022, UraniumFx Group Real Estate manages £10 billion of real estate on behalf of a wide range of institutional and individual investors.

## *Our Philosophy*

Our philosophy is centred on consistent principles, investing in strong fundamentals, and actively managing real estate portfolios.

Our research-led approach identifies themes and trends informing our strategies to invest in locations and assets best suited to long-term real estate investment. As a result, our portfolios are located in 'Winning Cities' and regions best suited to benefit from these trends. We are an active manager of real estate; each asset has an individual business plan and is actively managed throughout its life to generate the optimum return for our investors.

# Infrastructure

UraniumFx Group LTD is an Assets Management firm, with a transatlantic focus on mid-market infrastructure with a differentiated approach to deal sourcing. Our economic infrastructure investment philosophy centres on our belief that infrastructure is a long-term asset class capable of delivering attractive, consistent returns to investors.

## *Our approach is focused on:*

- ✓ Developing a long-term fund structure which is aligned with investors' objectives.
- ✓ Creating a portfolio of mid-market core/core+ infrastructure investments
- ✓ Recognizing the importance of effective asset management and stakeholder engagement
- ✓ Clearly defining what constitutes core infrastructure within our target return range.

# OUR PRICING RATES AND AFFILIATE STRUCTURE

Our daily return rates of 1% to 3% are achieved through a combination of the following factors:

- **Diversification:** Spreading investments across multiple segments reduces risk and enhances stability.
- **Expert Management:** Our team of experienced professionals employs rigorous analysis, advanced trading tools, and strategic decision-making to optimize returns.
- **Market Opportunities:** We continuously monitor and respond to market dynamics, ensuring we capture profitable opportunities as they arise.
- **Risk Management:** Robust risk management frameworks are in place to protect your investments and maintain consistent performance.

## SHARE 3

ROI 3% Daily Interest Rate

Trading days 5/7 weekly

\$50,001 - \$5,000,000,000 max

## UraniumFx Group Ten Tier Affiliate Program

The UraniumFxGroup 10 Levels Deep Unilevel Compensation Plan, also known as an affiliate program, is a type of multi-level marketing (MLM) structure used by UraniumFxGroup to reward its affiliates for promoting and selling its products or services.

Here's a breakdown of how the UFXG compensation plan typically works:

- **Uni-level Structure:** This refers to the basic MLM structure where you, as an affiliate (distributor), can recruit new affiliates directly under you. These recruits form your first level. Each affiliate you personally recruit forms your level 1.
- **Depth of Levels:** In UraniumFxGroup's case, they offer a 10-level deep structure. This means that you can earn commissions not only from your direct recruits (level 1) but also from the affiliates that your recruits bring in (level 2), from the affiliates recruited by those on level 2 (level 3), and so on, up to 10 levels deep.
- **Commission Structure:** Affiliates typically earn commissions based on the sales generated by their downline (the affiliates recruited by them and their recruits).
- **Advantages and Challenges:** The multi-level aspect can offer significant earning potential by leveraging the efforts of your downline. However, it also requires active recruitment and management of a team to maximize earnings.
- **Affiliate Benefits:** Besides commissions from sales, affiliates might also receive bonuses, incentives, or rewards based on their team's performance or their own achievements within the company's structure.
